Life Technologies Magyarország Kft, part of Thermo Fisher Scientific:
member of the Hungarian Biotechnology Association

Thermo Fisher Scientific Inc. (NYSE: TMO) is the world leader in serving science, with revenues of \$17 billion and approximately 50,000 employees in 50 countries. Our mission is to enable our customers to make the world healthier, cleaner and safer. We help our customers accelerate life sciences research, solve complex analytical challenges, improve patient diagnostics and increase laboratory productivity. Through our premier brands – Thermo Scientific™, Applied Biosystems™, Invitrogen™, Fisher Scientific™ and Unity Lab Services™ – we offer an unmatched combination of innovative technologies, purchasing convenience and comprehensive support.

Life Technologies Magyarország Kft is a Thermo Fisher Scientific subsidiary representing its product portfolio under the Life Sciences Solutions group. Full workflow solutions in cell culture, cellular and protein analysis include stem cell research, microscopy and flow cytometry under well-known brands such as Gibco™, Molecular Probes™ or Pierce™.

It offers full range of Consumables and Instruments solutions in the molecular biology space from synthetic biology and genome engineering through PCR/qPCR, Sanger and next generation sequencing under brands such as Applied Biosystems™, Invitrogen™, Thermo Scientific™, Ion Torrent™.

In addition to the academic research segment, our products and capabilities are widely used in biopharmaceutical manufacturing, translational medicine, human identification or animal health markets. The products are for Research Use Only unless specified otherwise.

The above mentioned products can be found on the following website: <https://www.thermofisher.com/hu/en/home/life-science.html>

Life Technologies Magyarország Kft is an associate member of the Hungarian Biotechnology Association since 2002. As part of an international matrix organization, it provides high level of consultative sales, technical support application trainings, instrument services as well as in- and out-licensing possibilities for members in the Hungarian life science market. In addition to serving Customers in Hungary, it operates as a Customer Service Center for Customers in more than fifteen countries including France, Germany, Switzerland, Austria, and the Visegrád countries.
